

ROBERT DUNAHAY

Included in prestigious domestic and international collections, contemporary artist Robert Charles Dunahay is best known for his chromatically lush paintings of palm trees. His large colorful canvases of a single palm image isolated against a solid color background have an immediate and definite pop art quality. The palms are beautifully rendered in fantastic detail with crisp, confident brushstrokes and saturated with rich colors.

As a result of Dunahay's intimate approach and ability to personalize the subject matter, these paintings feel more like portraits than landscapes. They evoke feelings of tranquility and warmth, while symbolizing promise and hope.

Distinguished patrons worldwide collect Dunahay's work, including the Royal Family Al Thani of Qatar, and Baroness Monica Von Neumann of Switzerland. His colorful paintings frequently get snapped up by celebrities like Pierce Brosnan, Kelsey Grammer, and

Linda Hamilton to name a few. Corporate collections include Pepperdine University, The Financial Times, The Packard Foundation, and the W Hotel. His work is held in the collections of the Peninsula Museum of Art and the Fredrick R. Weisman Museum of Art. Dunahay has been featured in Metropolitan Home, Space Magazine, Palm Springs Life, Dune Magazine, Sunset Magazine publications, and Season in the Sun Magazine. Museum exhibitions include the Frederick R. Weisman Museum of Art (Malibu, CA), Palm Springs Art Museum (Palm Springs, CA)
